Call to Action

Due to the current Covid-19 crisis, there is an immediate need for acts of mercy. As soon as possible we need to find housing for the people in our community currently experiencing homelessness so that they can shelter safely.

The Bert Nash Homelessness Outreach Team was approved for a grant of \$50,000 from the State of Kansas to house people that are unsheltered. The biggest barrier to getting people housed quickly is finding landlords with vacancies willing to consider housing those in need.

If you are a landlord with a vacant property and want to talk to a housing provider about potential tenants **who have the ability to pay rent**, please text **(202) 410-4202** and put **“landlord”** in the body of the text. We will pass on your info to service providers like Family Promise and Bert Nash and they will discuss any possibilities within your comfort level. **Taking this action does not obligate you in any way except to have a conversation.**
